## LIBRARY REPORT.

---

The trustees of the Andover town library submit the following report for the year ending Feb. 15, 1906 :

The number of books issued during the year at Andover was 1900 ; at East Andover 742. The number of borrowers at Andover 160 ; at East Andover 77.

Total circulation 2,642 ; total number of borrowers 237. The success of a library is measured chiefly by its use, and the annual increase of the circulation of books, from this library, among the people is greatly to the credit of the town.

But there is still room and need for wider circulation. There have never been better opportunities for every person in town to read good books than exist at the present time. New books are purchased two or three times a year and the increasing value of the collection should be appreciated by an additional number of readers. If each family that now takes out books would persuade one other family to begin to use the library we should soon have in this collection the most valuable asset in the town. It is free for all ; it is hoped that all will appreciate and enjoy its advantages.

J. F. MORTON,
